PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 4+ years of experience designing and developing scalable web applications using Java, Spring Boot, JavaScript, React.js, Node.js, Express.js, MongoDB, MySQL, Docker, and JWT Authentication.

Experienced in developing secure RESTful APIs, building responsive user interfaces, integrating frontend and backend systems, and deploying containerized applications. Passionate about writing clean, maintainable code and delivering software solutions that solve real-world business problems.

Strong foundation in software engineering principles with a B.Sc. in Computer Science & Informatics (Second Class Upper, CGPA: 4.48/5.00). Seeking opportunities to contribute to high-performing engineering teams while continuing to grow as a software engineer.

CORE COMPETENCIES

- Full-Stack Development
- Backend Engineering
- Frontend Development
- Java Development
- Spring Boot Development

- REST API Design
- JWT Authentication
- Docker Containerization
- Responsive Web Design
- Database Design
- Microservices
- Git Version Control
- Software Testing
- Agile Development
- Problem Solving

TECHNICAL SKILLS

Programming Languages

- Java
- JavaScript (ES6+)
- SQL
- HTML5
- CSS3

Frontend

- React.js
- Redux
- Bootstrap
- Tailwind CSS

Backend

- Spring Boot
- Hibernate/JPA
- Maven
- Spring MVC
- Spring Security
- Node.js
- Express.js
- REST APIs

Authentication

- JWT Authentication
- Role-Based Authorization

Databases

- MongoDB
- MySQL

DevOps & Cloud

- Docker
- Microservices

Tools

- Git
- GitHub
- Postman
- IntelliJ IDEA
- Visual Studio Code
- SQL Developer

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer

United States of Africa (Remote)

Texas, USA

April 2023 – December 2024

Responsibilities & Achievements

- Developed responsive React.js applications using reusable components.
- Consumed and integrated REST APIs with frontend applications.
- Built secure authentication flows using JWT.
- Collaborated with backend engineers to implement new application features.
- Optimized application performance and responsiveness.
- Participated in debugging, testing, and deployment activities.

Technologies

React.js • JavaScript • REST APIs • JWT • Git

Full-Stack Developer

Hardcore Solutions Technology Ltd

Bayelsa, Nigeria

January 2020 – December 2023

Responsibilities & Achievements

- Designed and developed RESTful APIs using Spring Boot and Node.js.
- Built secure authentication and authorization using JWT.
- Developed backend services following REST architecture principles.
- Designed and maintained MongoDB and MySQL databases.
- Built frontend interfaces with React.js.
- Containerized backend services using Docker.
- Tested APIs with Postman before deployment.
- Collaborated with team members to deliver production-ready software.

Technologies

Spring Boot • Java • React.js • Node.js • Docker • MongoDB • MySQL • JWT • Postman • Git

FEATURED PROJECTS

Workout Tracker (MERN Stack)

A full-stack fitness platform allowing users to register, log workouts, monitor progress, and securely manage personal fitness data.

App: <https://workout-service-n131.onrender.com/>

Features

- User Authentication using JWT
- RESTful API
- MongoDB Database
- Responsive Design
- CRUD Operations

Technology

React.js

Node.js

Express.js

MongoDBJWT Authentication

GitHub:

<https://github.com/ebinan10/frontend>

Koseunti (React - App)

A front-end application for a religious organization.

App: <https://www.mountainofposibility.name.ng/>

Features

- Responsive Design

Technology

React.js

GitHub:

<https://github.com/ebinan10/oriokekosieunti>

Magnificent Limited (React - App)

A front-end application for a religious organization.

App: <https://www.magnificentltd.name.ng/>

Features

- Responsive Design

Technology

React.js

GitHub:

<https://github.com/ebinan10/magnificentltd>

Spring Boot REST API

Designed and developed secure RESTful APIs using Spring Boot.

Features include:

- CRUD Operations
- JWT Authentication
- MySQL Integration
- Layered Architecture
- Exception Handling
- Validation
- Docker Support

Personal Portfolio

<https://singlepagecv.netlify.app/>

EDUCATION

Bachelor of Science (B.Sc.)

Computer Science & Informatics

Federal University Otuoke

2012 – 2016

Second Class Upper (CGPA: 4.48/5.00)LANGUAGES

- English (Fluent)
